

Dr Holger Allroggen

My family and I moved to Thurlaston from Knowle, Solihull in 2002. Whilst I have no prior experience in Parish Council work I have been supportive of and have taken part in many village events over the last 20 years enjoying the friendly neighbourhood atmosphere and the adjacent countryside.

I work as a Consultant Neurologist at University Hospitals Coventry & Warwickshire NHS Trust with clinical commitments at both the University Hospital in Coventry and Hospital of St Cross in Rugby. I have been training in and working for the NHS since 1992 and held senior clinical management positions at the trust for many years.

I hope I can now invest my experience in support of Thurlaston Parish Council.
