

Lee White (BEng Hons)

I was born in Ryton on Dunsmore and lived there for over 35 years. In 2018 we moved to the village of Thurlaston after our family members were in close proximity Dunchurch.

I began my educational career at Coventry University where I studied mechanical engineering and aerodynamics. Shortly after leaving university, I moved into sales recruitment for a short spell before moving to a testing machine manufacturer based in Germany but office in the UK.

I have spent the last number of years managing sales and marketing operations for the UK, Ireland and Iceland as part of my role I support some of the UK leading manufacturing companies and often present for Universities and Public authorities.

When I am not enjoying the long walks over the fields with my wife I support Coventry City Football club which takes up most of my Saturday afternoons.

I am keen to support the local activities and offer support/guidance to the local parish of Thurlaston for the coming years.
